288 Bailey St, Canton, MA 02021

Established in 1967 and led today by Brian Sampson, J.G. Alaimo Inc. installs, services and maintains heating and cooling systems for homes, businesses and municipal buildings across the Greater Boston area. We partner with National Grid Project Expediters and energy services firms to install the HVAC portion of Mass Save, Green Communities and municipal energy projects, so your team can sell and deliver more work without adding mechanical crews.

Since 1967	24-hour	Greater Boston	Prevailing wage
In business	Turnkey quotes	Service area	Public-project ready

WHAT WE OFFER PEX PARTNERS

- **On-site consultations:** we meet your sales team at the job site to walk the building and scope the HVAC work
- **Turnkey quotes in 24 hours:** equipment, labor, controls, permits and startup in one firm price
- **Incentive-ready documentation:** cut sheets, model numbers and pre/post-install photos for utility applications
- **Installation & commissioning:** to your schedule, with a single point of contact
- **Closeout:** warranty, owner training and support for the utility inspection

CORE HVAC CAPABILITIES

- Air-source heat pumps, ducted and ductless
- Rooftop units, split systems and makeup air
- Furnace and boiler replacements; hydronic upgrades
- Ventilation and energy recovery (ERV/HRV)
- VFDs, thermostats and controls integration
- Preventive maintenance agreements

PUBLIC-SECTOR & PROGRAM READINESS

- **Experienced with** prevailing wage and certified payroll on municipal and school projects
- **Comfortable with** work in occupied schools, town halls and public-safety buildings, scheduled around operations
- **Program details:** [Background checks available for crews: Yes/No] • [Mass Save Heat Pump Installer Network: Yes/No]

LICENSES, INSURANCE & BONDING

- **Licenses:** [MA sheet metal / refrigeration technician / gas fitter license numbers]
- **Insurance:** General liability $[__] per occurrence / $[__] aggregate; workers' comp; auto; umbrella $[__]
- **Bonding:** Single project $[__] / aggregate $[__] through [surety] • Capacity: [__] technicians, [__] vehicles
